SIR SAMUEL CUNARD

Sir Samuel Cunard – founder of the Cunard Steamship Line. Born in Halifax, Nova Scotia 21st November 1787, died in London, England 28th April 1865. He was the son of a merchant and became successful in several kinds of businesses. In his early years he amassed a sizable fortune from banking, lumber, coal and iron, also building a merchant fleet of 40 vessels.

In 1839 with a few other businessmen he formed the ‘British & North American Royal Mail Steam Packet Company’ and won a contract with the British government to carry the mail fortnightly between Liverpool, Halifax, Quebec and Boston.

Later the company changed its name to ‘Cunard Steamships Limited’ becoming the greatest name in history for ocean travel. The first mail steamship was the ‘Britannia’, which left Liverpool for Boston on 4th July 1840 and together with the ‘Acadia’, ‘Caledonia’ & ‘Columbia’ steamships they formed the first line of mail steamers marking the beginning of regular passenger and cargo service. Cunard later dominated the Atlantic route with liners such as the Lusitania, Mauretania and the legendary Queens.
